

Catalina-Rincon FireScape Agenda

Thursday October 7, 2010

9:30 am to noon at The Nature Conservancy, 1510 E Fort Lowell, Tucson

PIL/Proposed Action/launching NEPA update (Brooke, Angie for Janel)

Tentative date for ID Team meeting November 18, 2010. Update on proposed action and wilderness options.

Fuels map update/workshop dates (Brooke and Cori)

Joe and Don H. are ready to come to Tucson with a fuels map. Tentative dates for workshops to correct fuels map, look at modeling Don F proposes for the Catalinas, and roll the map out to users set for November 3,4,5. Material from initial effort for C-R purpose and need.

MSO design criteria (Brooke)

Look at Chiricahua design criteria statements and compare with needs for Catalina

Ecological unit descriptions update (Cori)

Treatment options next steps – set meeting to make corrections. Look at Chiricahua revised treatment menu.

Meeting with Environmental Conflict Resolution group (Brooke and Don)

Update on information session regarding Coronado's prospects for getting funded under the Collaborative Forest Landscape Restoration program.

Website update (Cori)

Update from meeting with Craig Wissler and Don Falk regarding future of website.

Integrated Landscape Assessment Project Introduction (11:15 am)

Miles Hemstrom (FS ILAP lead) and Jimmy Kagan (ILAP science delivery module lead) will introduce this project which is providing new (14-20 box!) vegetation state-and-transition models for all of FS Region 3 as part of a land management decision-support modeling effort. Seems like there must be some common ground!
