

## **Catalina-Rincon FireScape Agenda**

**December 2, 2010**

**9:30 am to noon at The Nature Conservancy, 1510 E Fort Lowell, Tucson**

### **Review/discuss draft scoping notice (attached) (everyone)**

#### **Fuels map update (Chris)**

- Latest from Joe and Don
- Separating out acres by jurisdiction/more discussion of NPS and other players' involvement

#### **Marrying ecological maps with fuels maps (Don and Chris)**

- Overlaying fuels on eco units as part of existing conditions statements (tabular results as well as maps?). Model runs for eco units can be the basis for the NEPA fuels analysis (similar to Huachuca).

#### **Fuels analysis outreach (Cori and everyone)**

- Discuss scheduling for a multi-jurisdictional area session with biology/environmental groups and interested folks: need Chris or Don F & students to drive models

#### **Progress on treatment menu and desired conditions (Don and Cori)**

- Status of modeling runs to help us find priority treatment areas to incorporate into the proposed action.

#### **Discuss IDT meeting date (Jan 7<sup>th</sup>) and the future/role of the "Executive" monthly meeting (Janel)**

- Discuss results of doodle poll and who is/isn't attending the meeting
- Review budget spreadsheet with TEAMS personnel and number of days assigned- how many days are appropriate for each specialist?

#### **Update on MSO design criteria (Randall)**

- Randall and BLT (Biological Leadership Team) are working on consistent design criteria for Mexican Spotted Owl across the forest. We will need those criteria for our NEPA docs and BAs.

#### **Website update (Cori)**
